# CHAMPLAIN CANALWAY TRAIL

# Wayfinder

WALK - BIKE - RUN - FUN

## WHAT IS THE CHAMPLAIN CANALWAY TRAIL?

The Champlain Canalway Trail is a 62-mile multi-use trail extending from Waterford to Whitehall in northeastern New York. Sharing a footprint with the Empire State Trail and parts of State Bike Route 9. The trail takes walkers and cyclists through a landscape rich with its agricultural and cultural heritage and historical communities with many points of interest to explore along the way. The full length of the trail parallels the Erie Canalway National Heritage Water Trail along the Champlain Canalway with trail heads at water access points.

## WHAT IS A BICYCLE FRIENDLY BUSINESS?

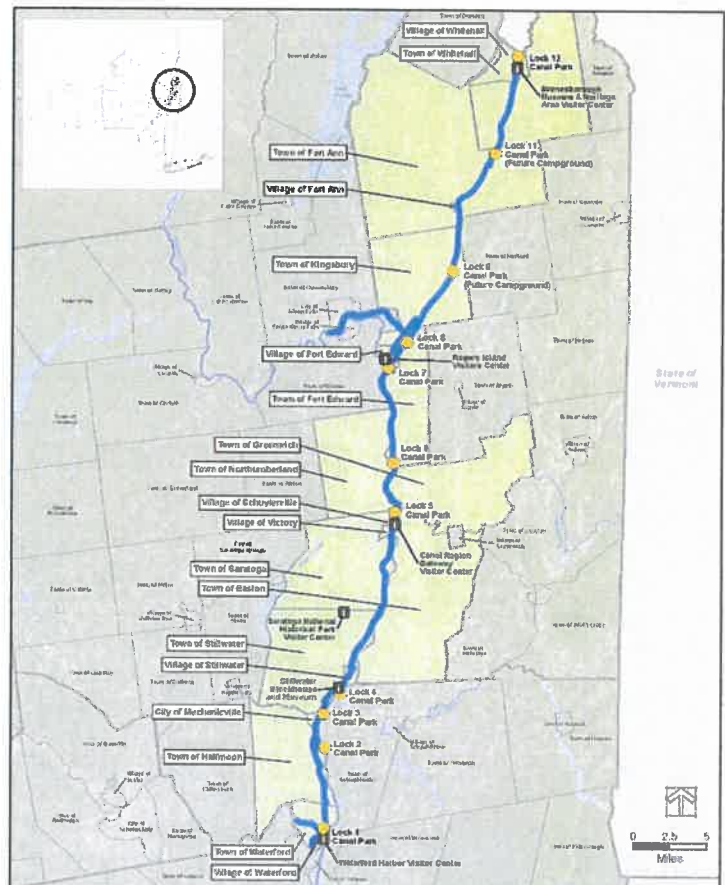

The CCT Working Group encourages businesses in the trail corridor to certify as a Bike-Friendly Businesses through the Bike Friendly New York program run by Parks & Trails New York (PTNY). Why get certified? Here are a few of the top reasons:

1. Bike Friendly Businesses understand how to help bicyclists using the trail enjoy their visits and leave with a smile!
2. Happy customers will tell their friends how great you are!
3. Build your reputation and that of the trail itself and your community!
4. Publicity! Once certified, your business on a map and list on PTNY's website and you receive a logo for your storefront.
